## audio pro visits crown

Crown recently had a visitor from the "TONIGHT SHOW WITH JOHNNY CARSON". Ron Estes, who is the Audio Engineer for the "TONIGHT SHOW" and also a well respected professional in the broadcast field, started with the "TONIGHT SHOW" in 1969. Mr. Estes has worked with the best in the TV industry including the "FLIP WILSON SHOW" and also the "WELCOME BACK KOTTER SHOW". His background is decorated with numerous awards including:

- \* The Emmy Award for Audio Performance with the Sheila Easton Tour
- \* Nomination for the Emmy Award for Audio Performance for the "TONIGHT SHOW" in 1984 and 1986
- \* Nomination for the Emmy Award for Audio Performance with the production of "OUR TOWN"
- \* OB Hansen Award for Superior Achievement with NBC

Mr. Estes is working with Crown International by testing several of Crown's new and innovative microphones on the "TONIGHT SHOW". He is currently using Crown's PCC-160 and GLM Series Microphones.

Along with Mr. Estes' visit to Crown International, came the opportunity to visit the Michiana area. He was extremely impressed with the WNDU-TV (an NBC affiliate) facilities and the quantity of recent STATE-OF-THE-ART equipment for a station of its size. Mr. Estes has had a strong interest in local broadcast stations since he began in the industry many years ago. He was also able to see the Notre Dame campus and the East Bank Raceway. Mr. Estes viewed Michiana as having, "A very personal touch that extended feelings of the town where I grew up in Missouri."

## crown sponsors special olympics

Crown International Inc., 1718 W. Mishawaka Road, recently became a principal sponsor for the 1987 International Summer Special Olympic Games July 31 to Aug. 8 at the University of Notre Dame and St. Mary's College.

The audio equipment manufacturer will donate and coordinate the complete sound system for the games, including the sound for the opening ceremonies where pop music star Whitney Houston is scheduled to perform.

Crown's donation is worth more than \$250,000 in time and equipment, according to Margo Sousley, Public Relations Coordinator at Crown.

For the undertaking, Crown has brought in Tom Durell, who was a sound audio engineer for the 1984 Summer Olympic Games in Los Angeles as well as at the Statue of Liberty celebration last summer, Sousley said.

## SONG OF MARCH

Morning sun of early March  
Is glittering and bright.  
Diamonds garnish the soft white blanket  
That came swiftly in the night.  
Nature grows impatient,  
Anticipating spring.  
And hearts lift in glad surprise  
To hear the cardinal sing.  
The merry notes come floating  
Through the frosty air.  
A throbbing breast 'neath coat of red  
And spring is waiting there.  
Poised with expectation  
In that tree so tall.  
Knowing soon there will be an answer  
To each mating call.

## correction

**MR. EDWARD COLLINS III** was much maligned after the February CRIER published that "If he were going to the moon he'd be sure to "have" - "politicians, garbage, lawn mowers, rust". When it was brought (vehemently) to the attention of the Editor, and a magnifying glass was produced to read his writing, we discovered he would "leave" those things! Most humble apologies, Ed!

**TRILVEY WORKS**, Data Entry - Stockroom, will be heading toward new fortunes in California in April. She has worked at Crown for 4 1/2 years doing Data Entry for EDP and then Stockroom. She hopes to continue selling Mary Kay Cosmetics but will be looking for employment in the San Diego area, where she will move with her sister. We wish Trilvey the best and Godspeed.

We know why **JIM CRUME** was chosen "Employee of the Month" for Feb. He just looks fantastic!

Jim is a Machinist/Tool Maker and started working for Crown August 12, 1983. He has worked at Walerko, North End, Delta, and Crazy John's as a motorcycle mechanic and production worker. He has travelled to Arizona, Texas, Florida, Minnesota and includes music, guitars, cars, and recording as his hobbies and interests. The best book he has read recently is *INTERVIEW OF JOHN LENNON* and his favorite TV show is "Family Ties". He doesn't like "waiting" but his major goal is to buy a house. His most valued possessions are his wife, guitars, and cars.

Birthdays always "take the cake" here at Crown and these were particularly noteworthy:

**DICK (WILLIAM RICHARD) HOUSLEY** became "Willie the UnderTech" February 27 as he sported his new blue T-shirt printed especially for him by Line 6. This he

enjoyed (you'll have to ask him about the new name) but we are not sure about the giant card, "Happy Birthday **OLD MAN!**" Pictures on Bulletin Bd.

**DEBBIE WISE**, Line 7, was surprised with these balloons delivered by the Clown on her birthday, Feb. 18th. They were sent by her former co-workers. What a great way to be remembered!

Mary Miller presented **MAX SCHOLFIELD**, **PRESIDENT**, with a basket of cards from the employees for his birthday, Feb. 22. His cake read, "Happy Birthday to a great President, leader, fisherman, boss, pilot and teacher", which doesn't say it all, but does say a lot!

**O**PINION IS expressed that the American home is sound as ever. Indeed, with radios, televisions and stereos, the American family seems to be largely sound.

**guess who?  
match these with the employee photo bd.**

"YOUR HUSBAND says he leads a dog's life," said one woman.

"Yes, it's very similar," answered the other. "He comes in with muddy feet, makes himself comfortable by the fire and waits to be fed."

**HIPPO POT DE MOUSSE**

16 lbs. bitter chocolate  
2 lbs. white sugar  
2 lbs. brown sugar  
1/2 C. vanilla extract  
11 Gal. heavy cream

In a large pan, melt the chocolate over boiling water. Add sugar and vanilla. Continue cooking until sugar is dissolved (about 3 days). Set aside to cool.

Pour cream into a well-scrubbed kitchen sink. Using a small Jacuzzi pump, whip the cream until stiff peaks form.

When you have recovered, fold the chocolate mixture into the cream. Shovel into serving bowls.

Serves 3.
